### Wasting A National Asset

Much money is being spent and a vast quantity of ink is being spilt in efforts to improve the quality of livestock and the produce of plant life, the better to serve the demand for a high standard of commodities, but what of the efforts that are being made to raise the physical standard of the human race to a comparable degree?

Have the governments of the country—and that means the people themselves—awakened to a realization of the importance of health, not only to the individuals themselves but to the nation as an entity?

Has the time yet arrived when legislation, expenditures and actions can be pointed to as indicative of the belief that the health and life of a human being are more important than those of a valuable cow?

The answer to such questions is at least open to debate insofar as results are concerned, for the weight of evidence lends strong support to statements that the health of the human race is depreciating and that national virility, the world over, is deteriorating; that the process has been going on for centuries and that so far the tide has not turned in the other direction, despite amazing advances in the realm of medical science in recent decades.

Professor Wallace says: "For 5,000 years man has been steadily going back physically." Professor Tredgold, English specialist on Race Degeneracy, says: "The race is growing weaker. Its vitality is being sapped by the life we lead and by being wantonly ignorant of hygienic facts available to all" and that "Insanity has increased 400 per cent. in 52 years." Professor Jordan of Leeland Stanford says: "We are degenerating."

All these and many other outstanding authorities on both sides of the Atlantic are quoted by Rev. George O. Falls in the current issue of "Health," official organ of the Health League of Canada.

And lest the reader should surmise that these strictures are applicable only to the British Isles and the United States Mr. Falls points out that out of 361,605 Canadians examined in war days, 181,229 were discounted physically at some point and that quite recently only seven per cent. of 150,000 children examined in a Canadian city were perfect in sight, hearing, teeth and heart action.

So many outstanding authorities are quoted by Mr. Falls that he leaves little opportunity for denial that the human race is degenerating physically on this continent as well as on the other side of the Atlantic.

That progressive continuance of such a condition as these authorities reveal must ultimately terminate in extinction there can be little doubt, and in the light of rapidly accelerating knowledge of the human body and recent discoveries in the art of diagnosis and the science of medical treatment, one can only wonder why and how long people will be content to suffer ill health and hasten towards the insane asylum and an early grave.

The truth of the matter is that ignorance, indifference and indulgence are the indestructible indices in the chapter of growing ill health through which the human race is passing and until this is realized there can be little hope for a halt in this wastage of national and individual asset—good health.

Many are suffering because of a lack of knowledge of the laws of health. Many are ailing because of a laissez faire attitude towards their condition. Many are afflicted with aches and pains because, even though they have the knowledge of prevention, they lack the will power to deny themselves to ephemeral pleasures, in order to gain or retain the greatest measure of happiness to be found in stamina, vigor and all round physical well-being.

The dwindling necessity for the use of physical exertion in order to live, the abuse of the automobile, the increasing tendency to live on highly refined articles of foodstuffs and increasing availability of luxuries—these are the factors which tend to human racial degeneracy.

One would not turn back the wheels of progress by banishing labor-saving equipment by eliminating the automobile and the airplane of tomorrow. But if people are to enjoy modern luxuries and improvements they cannot do so at the expense of their general health.

It is quite apparent that for many the solution of the problem lies in more exercise in the form of work or participation in sports, or both in a more simple dietary. Exercise, fresh air, natural foods, sufficient sleep, and moderation in all things—these are the principal elements in the construction of a healthy body, the prime essential to human happiness.

#### Admiralty Announces 140 Will Participate in Coronation Ceremony

The admiralty announced that 140 warships would participate in the coronation review off Spithead on May 20. Units of the home fleet will arrive there on May 14, followed by the Mediterranean and reserve fleets.

On May 21 the newly-crowned king will board the Southampton and visit the flagships of the different fleets. That evening the warships will return to their stations.

### FORMER CRIPPLE NOW PLAYS TENNIS

#### Rheumatism In Feet Relieved

He is a story of a young man who had almost given up the hope of taking part in active sports with his fellows again. He tells how he tried one remedy after another and how finally a former sufferer put him on the way to recovery.

"Two years ago I started with the feet in the which gradually got worse. I tried 'everything' under the sun' but to no effect. Whilst waiting for treatment on the part of another, I advised me to try Kruschen Salts. That was two months ago.

The relief was not sudden, but the pain and swelling gradually left my feet. I am now able to walk again with friends by taking long walks into the country. This year I have played a good deal of tennis, a thing which I had begun to think I should never do again."

Rheumatic pain and swelling is frequently caused by excess uric acid accumulations in the body. Kruschen contains two ingredients which are known for their power in dissolving uric acid deposits. Other ingredients in Kruschen assist the internal organs to expel this dissolved acid from the system.

### The Perfect Woman

#### Medical Adviser at Toronto University Has Made Discovery

The perfect woman is to be found on the University of Toronto campus. Dr. Edith Gordon, medical adviser for women at the college, knows who she is but refuses to tell.

Dr. Gordon, who examines co-eds for physical education, said it was the first time in 15 years one of them has met requirements of a perfect figure.

"I have been examining students for 15 years and each year I live in hopes of meeting the perfect woman," she told the physical education section of the Ontario Educational association. "This year I met her."

"Sometimes their backs are too long or too short, sometimes they have too long a neck or too short a neck, sometimes their thighs are too long or too short. It is most interesting, this study of symmetry and proportion."

"And when you find a perfect one, it is as great a thrill as when you find a beautiful piece of statuary—only more so because it is living."

### For Destitute Families

#### Military Blankets Worth \$82,233 Furnished Families in Broughton Area

Military blankets worth \$32,233 were furnished destitute families in the Broughton area of the prairie provinces from defence department stores, it was revealed in an order-in-council tabled in the house of commons.

On the recommendation of Labor Minister Rogers, the council voted \$32,233 from the special supplementary estimates for the closing fiscal year to an open account in the books of the department of finance, "to be used as required for replacement of the said blankets."

### WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If it doesn't do this, you will feel sluggish. It just decays in the bowels. Gas blocks up the bowels and the liver can't expel its poisons go into the body, and you feel sour, sick and the world looks pale.

You need something that works quickly. Take a bottle of Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel good again. You can't afford to make the bile flow freely. They do the work for you. Ask for Carter's Little Liver Pills by name! Stubbornly refuse saying etc. etc. etc.

Each cake of Royal  
comes sealed in an  
air-tight wrapper  
... it stays fresh!

I want no hint of sogginess, no  
unpleasant "off-taste" or grayish  
texture. It's important that you  
bake with a yeast that's always  
reliable... full strength and  
reliable.

Royal comes to you sealed in  
individual air-tight wrappings—  
free from contamination, its full  
leavening power assured. And it's  
the only dry yeast that has this  
special protection.

That's why 7 out of 8 Canadian  
housewives today bake with Royal  
when they use a dry yeast. They know they can count  
on good results... the day they  
buy Royal, or months later. For  
50 years, Royal has stood for  
freshness and purity.

Many Canadian People Living in  
State of Massachusetts

Figures may be dull reading at  
times but often they are not only im-  
portant, but of special interest. This  
is the case in connection with a Bos-  
ton despatch which discloses that  
every sixth person living in Massa-  
chusetts is either a Canadian by  
birth or descent; that they number  
288,051 in Boston alone and 436,749  
in the state.

It is particularly interesting to  
note that more than 90 per cent. of  
the Canadians now resident in Great-  
er Boston are from the Maritime  
Provinces, while Quebec has supplied  
many to other parts of the state.—  
Saint John Telegraph-Journal.

## How To Overcome Piles And Rectal Soreness

If you are annoyed with itching piles or  
rectal soreness, do not neglect the same  
or run the risk of a serious condition. It is  
soreness or painful passage of stool, is nature's  
warning and proper treatment should  
be sought. A simple poultice may be  
made by any druggist, a package of Hemroid and  
use as directed. It is a good remedy, and  
internally, quickly relieves the itching and sore-  
ness and aids in healing the sore, tender  
spot. Hemroid is a safe, simple and  
is highly recommended. It is easy to use  
and is a good value. It is a good remedy  
to risk an operation when a simple  
cure is so pleasant to use may be had at  
such a reasonable cost.

## THE YELLOW BRIAR

A Story of the Irish on the  
Canadian Countryside  
By PATRICK SLATER  
By arrangement with Thomas  
Allen, Publisher, Toronto.

CHAPTER II.—Continued

There was a splash. The boat returned  
to shore. The three separated  
without a further word being spoken.

"The dirty heretics!" observed  
Bridget, calmly. "And it is the likes  
of them that look down on the likes  
of us."

What seemed to disturb Mr. O'Hagan's mind, in connection with  
the story, was not the fact that the poor  
man had been murdered by the Ma-  
sons... expected nothing better of them.  
He was wrathful because Ma-  
sonry was so powerful that the state  
did not bring the murderers to justice.

"Oh, yes!" he told us, as he suck-  
ed at his cutty, "we had midnight  
burnings and horrible murders in  
Ireland; but if one peeked through  
the window, he saw the soldiery  
leading off the miserable creatures in  
irons to trial and to death."

The story of William Morgan  
brought dispute to the Masonic Order,  
and an element of distrust to  
the minds of the neighbors of every  
member of the craft. I mention it now,  
merely because it is a fair  
example of the unbridled prejudices  
of the times, which charged against  
every great body of men the recklessness  
of its individual members. Every  
man knew, nowadays, that the Free  
Masons have a beautiful system of  
morality veiled in allegory and illustrated  
by symbols. In their retreats of  
friendship and brotherly love, may  
God be with them. May the rays of  
heaven shed their benign influences  
upon them, and enlighten them in  
the paths of virtue and of science.

But I feel that way toward them,  
not because of the secret mysteries  
they hide, ever conceal and never  
reveal—and which are very suitable  
for Sunday school instruction—but  
because they form a harmless and  
respectable body of my fellow countrymen.

There is no unkindly feeling  
of any secret, fraternal, racial or religious  
societies that infest this

young country. It is only nature for  
birds of a feather to flock together.

Such societies may all have some  
use toward a common good; but  
there is a savor of snobbery at the  
basis of them all. They tend also to  
keep asunder Canadians who otherwise  
might more freely break the  
bread of patriotism at a common  
board and offer up to a land of freedom  
the full measure of their united  
and sincere devotion. Religious and  
lodge influences in public affairs have  
been a brightening curse in Canada. To  
get anywhere in my day, the aspirant  
had to be a bigot or a joiner; and,  
even today, there are poor prospects  
for any respectable loose fish.

There never was any question as to  
the kidnapping of Morgan. In January  
1827, Edward Sawyer and two other  
members of the craft, pleaded guilty  
in New York State "to con-  
spiring to seize and carry William  
Morgan from goal to foreign parts  
and there continually to secrete and  
imprison him." Sawyer was given a  
month in gaol.

The other side of the story was  
that Morgan had been helped to run  
away to Canada to avoid his creditors.

"But," as Mr. O'Hagan exclaimed,  
"if the said William Morgan was  
alive, why did they not produce the  
man and save their ugly faces?"

The next morning early I slipped  
around to see what had happened at  
the Tavern Tyrone. Himself was  
about, as usual, giving orders. His  
daughter, Violet, was making up a  
feather bed in the double bedded  
room upstairs over the bar. No sign  
saw I of ought untoward. The first  
meeting of King Solomon's Lodge,  
No. 22, G.R.C., had evidently passed  
without any one being hurt.

Young Jack Trueman may have  
heard more of that lodge meeting  
than was intended for his ears; or  
perhaps he had the gift of a powerful  
imagination. He claimed to have  
hidden under the bed in the back  
bedroom upstairs, with his ear to the  
partition. In any event, the master  
was much on his mind; and, in the  
afternoon, he herded a dozen young-  
sters into the Trueman stable to hold  
a lodge meeting of his own. I was in  
charge of the door; and Jack had a  
hammer and an empty beer barrel.

He gave the barrel three smart  
knocks; and we all came to attention.  
"What now, brethren, is our first  
care?" he demanded in the heavy

timbre of his voice.

Two men met at the time and  
place appointed. The third man joined  
long. Johnson was directed to  
fetch a row boat. The other two re-  
paired to the basement of the old  
stone fort.

Morgan begged for mercy—but he  
was in vain. His body was then  
placed in a gunny sack, which, being  
weighted with a chain, made a heavy  
burden for two men to carry. The  
boat was rowed out into the river.

### Tribute To The Horse

No Other Animal Ever Gave Such  
Service To Humanity

The eye for a horse, the love for a  
horse, is as old as man himself and is  
a part of the inheritance with which  
multitudes are born. There are those  
who take naturally to a horse and those  
who have no remembrance of the day  
when to be with one, to smooth his  
glossy neck, to ride him and drive  
him was not one of the rarest pleasures  
of life. It would be no hardship  
for such men to live for days along  
with an intelligent horse, gentle, re-  
sponsive to its owner's will. It is be-  
cause of this love for the horse, a part  
of the very nature of so many  
men, that the horse persists, and always  
will persist, no matter how many  
means of transportation may be  
invented which seem to threaten  
his future.

To multitudes of others, however,  
the horse is only a means to an end.  
They feel toward him as a man  
might toward an engine or an automobile.  
As long as he delivers them or their  
goods to the goal of their desire, he  
is loved, craved for his companionship  
and confidence, the joy of dealing  
with him in justice and kindness—  
these are things they never know  
any more than the man with no ear  
for music knows the delight he experiences  
who listens to a Beethoven  
Sonata.

What form of life lower than  
ours has served humanity as the  
horse has served it? He has played  
bravely his part on a thousand fields  
of battle, facing war's appalling horrors  
and moved to his task by no  
hope of its glory. He has helped build  
the world's greatest cities, their  
temples, their palaces, their libraries,  
their universities. He has made possible  
a million harvests. He has toiled  
on the railways of the nations. He  
has been a partner in the rearing of  
our homes. He has been our swift  
messenger in joy or sorrow. He has  
carried us through many happy hours  
of recreation. He has stood ready to  
die in our service when we have asked  
it of him.

You will have to take it from Albert  
G. Burns, congress president, about  
those fine men. He vowed by his  
word and said Oscar Jacobson of Seattle  
would demonstrate a pair he  
had "prolific" of the women in-  
vited to exhibit at the congress.  
Burns announced, was Mrs. Bess M.  
Hedge, Oklahoma City, credited with  
"51 varieties" of gadgets to ease the  
housewife's tasks.

Eight-year-old David Suddeth, of  
Fairfield, Iowa, was shown to have  
a device that peels and mashes potatoes  
in one operation and a window washer  
that cleans both panes at the same  
time.

Well may the great Homer have  
sung of the horses famous at the  
siege of Troy! Well may Alexander  
have founded a city in honor of the  
charger which bore him safely from  
the perilous field! Well may Clinton  
have reared beside his own an enduring  
monument for the fleet-footed  
mares which won him the chariot  
races at the Olympic games! Well  
may nations, as Japan has done, build  
monuments to the memory of the  
horses which have fallen in their  
wars!—Dumb Animals.

### Myth Is Exploded

Believe Cities Are Safe From  
DESTRUCTION BY BOMBING PLANES

The theory—often advanced as the  
dread certainty—that great cities  
such as Paris or, more remotely, New  
York could be razed and their civil  
population slaughtered by the sud-  
den swoop of an enemy air force was  
considered fantastic on the basis of  
military aviation's actual performance  
in the Spanish civil war.

The opinion was advanced by govern-  
ment pilots who have used the  
latest air equipment in air battles  
which were unequalled for the num-  
ber of planes involved. On the con-  
trary, they assert, almost undefend-  
able cities are, in a measure, safe from  
destruction even from bombing raids  
by superior fleets of aircraft.

The bill of the modern bird is  
lightly constructed. Even those of  
hornbills and toucans are surpris-  
ingly light.

### Little Helps For This Week

Now the peace of God make you  
perfect in every good work, to do His  
will, working in you that which is  
well pleasing in His sight. Hebrews  
13:20:21.

So firm in steadfast thought, in hope  
secure,

In full accord to all Thy world of joy,  
May I be nerved to labors high and  
pure,

And Thou, Thy child to do Thy work,  
employ.

Be with God in outward works,  
refer and offer them to Him, seek to  
do them for Him and He will be with  
thee, and they shall not hinder  
but rather invite His presence in thy  
soul. Seek to see God in all things  
and He will come nigh to thee. Nothing  
less than the mercy of God and the  
powers of the world to come can  
maintain the peace and sanctity of  
our homes, the spirit of patience and  
mercy in our hearts. Then will even  
the meanest drudgery of duty cease  
to humble us when we transfigure it  
by the glory of our own spirit.

### Canada's Population

Estimated at 11,100,000, According  
to Latest Returns at Ottawa

The estimated population of  
Canada in 1937 is 11,100,000, according  
to a return tabled in the house of  
commons from the department of  
trade and commerce.

At the last census in 1931, the  
population was 10,375,768. Natural  
increase of births over deaths was  
estimated at 135,624 a year.

In the decade from 1921 to 1931  
immigrants admitted to Canada num-  
bered 1,16,290. In the same period  
the natural increase of population  
was estimated at 1,362,000.

### Just Statistics

For the statistically-minded, Mont-  
real came forward with this. If one  
fireman alone had climbed as much  
ladder as all the city's firemen did together  
in 1936, he could have climbed 41,884 feet. And Montreal  
court stenographers last year bashed  
out 10,000,000 words—123 miles of  
words.

Of all the thousands of minor plan-  
ets, only one is visible to the naked  
eye. That one is Vesta, a tiny planet  
with a diameter of only 240 miles.
